# Put the Power to **Save a Heart** in Your Hands

Each year, Sudden Cardiac Arrest (SCA) unexpectedly takes the lives of hundreds of thousands of Americans. Studies show survival from SCA can be doubled or tripled if CPR is administered until emergency medical services arrive.

Date: May 22nd, 2018

Time: 1000-1300 **Drop-in**

Location: Oracle Fire Station

1475 W American Ave

Oracle, AZ

**AMR providing free CPR training to help save lives,  
make community safer**

During the week of May 20, local EMS provider American Medical Response (AMR) will provide coaching to local residents and teach them to save lives through compression-only CPR. The event is part of AMR's nationwide observance of National Emergency Medical Services Week with events being held nationwide.

Compression-only CPR allows bystanders to keep life-saving blood flowing through a victim's body just by pressing on the chest in a hard, fast rhythm. Bystanders who provide compression-only CPR can double or triple a cardiac arrest victim's chances of survival. Local schools and businesses are expected to participate in the event.

For the second year, AMR is partnering with both ACEP and IAFC for events throughout the week. For more information about AMR's CPR Challenge, please visit [www.amr.net/CPR](http://www.amr.net/CPR).
